

# FOR SCHOOL BOARD MEMBERS ONLY

- ▶ Are you searching for a new superintendent?
- ▶ Will you select an interim while searching for a superintendent?

*Larry Vaughn and Doris Fassino, Co-founders*

**If so, the QLR Executive Interim Team wants to help you make the most of the transition period by providing your interim services as a team.**

The QLR founders, as superintendent and assistant superintendent, have a twenty-year track record of jump-starting school district improvement in districts from 1,200 to 50,000 students. In selecting an interim superintendent, it would be difficult to find a more qualified individual than either of the founders. The **QLR Executive Interim Team** has a rich history of collective experience, documented success, and passion for serving children through improved educational systems. This positions them to expedite your interim expectations and provide you with meaningful, actionable information in a way that:

- Continues oversight of district administrative functions to maintain a tight focus on the fundamental purpose of improving student achievement
- Collects, organizes, and analyzes data related to the performance of district functions, structures, and processes to identify district strengths and improvement needs
  - Leadership (district, department, and school)
  - Planning (development, implementation, monitoring, evaluation)
  - Teaching for Learning (assessment, curriculum, instruction, evaluation)
  - Personnel (selection, assignment, development, assessment)
  - Support Operations (alignment to teaching-learning)
  - Budgeting and External Funding (alignment to priorities)
- Uses data analysis to guide the superintendent selection—matching talents, knowledge, and skills to data findings
- Sets up the selected superintendent for quick success and longevity

**QUALITY  
LEADERSHIP  
RESOURCES, INC.**
